● AJAX ● node.js ● Jasmine ● APIs ● Sketch

PROJECTS

Memory Game, (Nov 2017)

Interactive card matching game written in HTML, CSS , JavaScript and jQuery.

Pixel Art Maker, (Oct 2017)

Generate desired dimensions of image grid table, and choose any color to fill any of the cell grids to make a beautiful art.

Arcade Frogger Game, (Sep 2017)

The clone of classic Frogger Arcade game. Developed with an understanding of Object-Oriented JavaScript(OOJS) and HTML5 Canvas.

JS projects, (Oct 2017 - Dec 2017)

Vanilla JavaScript Coding Challenge

Built mini JS projects using just JavaScript. The resources and ideas were provided by WesBos.

Self Branding, Logo Design (Nov 2017)

Successfully designed the personal logo for my portfolio. The logo was designed with creative combination of the initials of the name. Sketch application was used to design.
